Risk management is integrated in the planning process as part of direction setting, activity and resource planning. The risk management process involves the identification, assessment and recording of risks and mitigating activities which are then incorporated into annual directorate statements and Service plans. Additionally, as part of the risk management process, appropriate insurance arrangements are put in place to off-set any exposure to liability. Monitoring of risks is undertaken at Service level, with the Audit & Governance Committee having delegated responsibility to monitor the Corporate Risk Register to ensure that corporate risks are effectively managed.
